Assunto: CBC inputs - Revision of the Strategic Development Plan

Dear Rafael

Thank you once again for allowing the CBC and its work streams the opportunity to provide input to possible refinements to the current SDP.

As expected, only one of the CBC work streams have proposals for refinement and that is the *Task Force on INTOSAI Auditor Professionalization* (TFIAP) with the following suggestions on item 3.3 on page 18:

- 2nd Column: Material to be reviewed or included as sources – it is suggested that the references to the ISSAIs and CBC materials be retained, but to omit IDI and AFROSAI-E as these documents have no standing in terms of INCOSAI approval.
- As far as the ‘Preliminary work group’ is concerned, now that TFIAP is being established (to have its 1st meeting in Brasilia on 5-6 June) and given its wide representation including the PSC and KSC, FIPP and INTOSAI regional organisations, and seeing that the CBC is mandated with the development of the competency pronouncements, we would be more comfortable with the 3rd column merely stating “CBC / Task Force on INTOSAI Auditor Professionalisation” (if needs be with a note that “TFIAP includes appropriate representation of the PSC and its working groups / sub-committees”).

Best regards

Cobus Botes
